Riffle™ Graphite Fly Rod Blanks--Fine Quality Since 1972

**"Small Stream-----Light Line Blanks"**

**"Mountain Stream™" Graphite Fly Rod Series  
New "Blended Graphite Bg33™"**

My new MOUNTAIN STREAM™ blanks are made from the very latest "Blended Graphite BG33™", the very newest high technology and high tech materials, we actually use various grades of graphite incorporated in each blank to achieve the tapers to our exacting specifications--designed by and tested by fisherman.

My new MOUNTAIN STREAM™ blanks are super light in weight, great delicate casting rods, superior fly presentation and just a dream to cast. No other rod maker offers my fine selection of 2 distinct actions within the same series of rods--1. Light smooth, delicate action, 2. Quick-crisp action. I offer you a fine quality blank that is priced at a fraction of the real value of this whole series--you will not be disappointed, quality is our most important feature--try one.

**Mountain Stream™..... Graphite fly rod blanks**

**Color: lovely translucent brown graphite**

**KETTLE CREEK ROD™ —GRAPHITE FLY ROD BLANKS**  
**NEW “BLENDED GRAPHITE BG33™”**

My Kettle Creek™ blanks are made from the very latest “blended graphite technology” and high tech materials we actually use various grades of graphite incorporated in each blank to achieve the tapers to our exacting specifications—designed by fisherman and tested by fisherman.

I classify these new blanks “fast action tapers” but they are not so stiff that they will not bend, blanks flex to make a very quick action tip. These are a fly casters dream fast but with some tip action, that makes for superb fly presentation and ever so easy to lay out an excellent cast. These blanks are priced at a very affordable price.

**NEW "KC BROWN—KC DARK OLIVE—MATTE BAMBOO TAN"—GLOSS BAMBOO TAN**

Our new Riffle™ XXL-GLASS™ fly rod blanks possess that beautiful "bamboo action", the ever forgiving action that lets you feel the rod flex to the butt section that can't be duplicated by graphite—plus the light weight rods possess these special features: a lovely full action, responsiveness, balance, durability, beautifully finished, and lightness you can't imagine, most are as light or lighter than graphite.

My new Riffle™ XXL-GLASS™ blanks are made from 100% E-GLASS fiber glass material that is very light-very strong-a lovely "gloss bamboo tan" finish, "non-glare dark bamboo tan" finish, new "gloss natural bamboo" finish, and new "gloss KC brown" finish. You will find casting our new Riffle XXL-GLASS rods a pleasure- easy smooth casting, very delicate presentation, very light in your hand and when you catch a trout you can feel the rod flex right to the butt-what a lovely feeling.

Once you have had one of my new RIFFLE™ XXL-GLASS™ rods in your hand- you will agree there isn't a finer rod made for those beautiful streams and lovely trout-simply a pleasure to fish and own-try one of the finest glass fly rods made and you will just love the action.

1.—QUALITY 2.---QUALITY 3.---QUALITY

**RIFFLE™ FLY ROD BLANKS—FINE QUALITY SINCE 1972**

**MOUNTAIN TROUT™ GRAPHITE BLANKS**

**NEW "BLENDED GRAPHITE BG33™"**

Our new "MOUNTAIN TROUT™" graphite fly rod blanks are made from the newest in high technology and high tech materials, we actually use various grades of graphite incorporated in each blank to achieve the tapers to our exacting specifications. These tapers are quick-responsive-easy to cast and control-light in weight-durable and super high quality.

You will find all tapers designed by and tested by fisherman. I would describe most of these tapers as medium fast, that have quick power to cast flies easily and still have that ever so important presentation. All models are lightweight and simply said, "a very pleasurable and casting experience—quality at prices that very affordable—can't miss with these blanks.

**RIFFLE™ "IMPREG-CANE™ "TONKIN CANE FLY ROD Blanks**

"BASICALLY A LIFETIME MAINTENANCE FREE FLY ROD™"

My RIFFLE™ "IMPREG-CANE™ Tonkin-Cane fly rod blanks are impregnated for "BASICALLY A LIFETIME MAINTENANCE FREE ROD FLY ROD". My new "hi-tech" method of impregnating fly rods does not alter their lovely action and adds less weight to the rod than varnishing a rod does, yes my "IMPREG-CANE™ "fly rods are lighter than varnished rods. The "advantages to an impregnated rod are", they are moisture resistant to water, won't crack, peel, chip like varnished rods, nice non-glare, and don't forget "Basically a lifetime maintenance free fly rod™ ."

There will never be a substitute for the natural aesthetic beauty of cane, the smooth casting ability, unexcelled fly presentation and the ever forgiving fly presentation of cane. Many of the fisherman today have not fished with a "quality cane rod", unfortunately, and do not know the wonderful pleasurable joy of fishing, owning and admiring a beautiful handcrafted "Tonkin-Cane" fly rod.

My RIFFLE™ "IMPREG-CANET™" rods perform brilliantly and each rod is designed with one of your special needs in mind. My rods are made from the very best Tonkin-Cane available, excellent quality and meets our "high quality standards", with unexcelled highly skilled craftsmen. This one is "AFFORDABLE" to everyone.

### OUR 3 "MOST IMPORTANT FEATURES

1.—QUALITY 2.---QUALITY 3.---QUALITY

MADE IN THE U.S.A FINE QUALITY SINCE ----- 1972 MADE IN THE U.S.A

### RIFFLE™ "IMPREG-CANE™ "TONKIN CANE FLY RODS

"BASICALLY A LIFETIME MAINTENANCE FREE FLY ROD™"

My RIFFLE™ "IMPREG-CANE™ Tonkin-Cane fly rod blanks are impregnated for "BASICALLY A LIFETIME MAINTENANCE FREE ROD FLY ROD". My new "hi-tech" method of impregnating fly rods does not alter their lovely action and adds less weight to the rod than varnishing a rod does, yes my "IMPREG-CANE™ "fly rods are lighter than varnished rods. The "advantages to an impregnated rod are", they are moisture resistant to water, won't crack, peel, chip like varnished rods, nice non-glare, and don't forget "Basically a lifetime maintenance free fly rod™."

There will never be a substitute for the natural aesthetic beauty of cane, the smooth casting ability, unexcelled fly presentation and the ever forgiving fly presentation of cane. Many of the fisherman today have not fished with a "quality cane rod", unfortunately, and do not know the wonderful pleasurable joy of fishing, owning and admiring a beautiful handcrafted "Tonkin-Cane" fly rod.

My RIFFLE™ "IMPREG-CANE™ " rods perform brilliantly and each rod is designed with one of your special needs in mind. My rods are made from the very best Tonkin-Cane available, excellent quality and meets our "high quality standards", with unexcelled highly skilled craftsmen. This one is "AFFORDABLE" to everyone.

. MADE IN THE U.S.A.-----MEDIUM TO DARK FLAMED COLOR BLANK

#### Riffle™ IMPREG-Cane™ ROD SPECIFICATIONS:

RI-84-moderate action, an excellent rod for larger streams, casts superb, shoots line well.

RI-79-very nice medium action with power and nice fly presentation, handles larger and smaller lies with nice delicate presentation, excellent rod, one of my favorite lengths for dries, nice tight loops.

RI-755-one of the finest dry fly rods available, nice crisp smooth medium action, beautiful presentation with power and delicacy, great rod, must cast this rod, "A CAN'T MISS ROD", nice tight loops.

RI-754-smooth medium action dry fly, presentation and casting no problem, a pleasure to cast, very nice rod,

RI-7345-smooth crisp medium dry action, light rod, nice line control, nice loops.

RI-734-light action, delicate fly presentation, casts very nice with soft smooth action.

RI-74superb medium action dry fly, you must cast this one, none like it, just a great rod in your hand "A CAN'T MISS ROD", if you fish a lot of dries this 7' is just the ticket, nice tight loops.

RI-63-smooth light action, high rod, very smooth delicate casting, one of the very best small stream rods available—none better, you will really like this, very nice short casting.

**3 "Most Important Blank Features"**

Riffle™ Fly Rods—Fine Quality Since 1972

Mountain Rod™ Series

New “Blended Graphite Bg33™”

New For “2013”—4 Piece, All New “Natural Bamboo Color”

New “2013”—4 Piece----“Fast Action, But Not So Fast™”

My new “Mountain Rod™” is made from the very newest “Blended Graphite BG33™” The newest in high technology and high tech materials, we actually use various grades of graphite incorporated in each blank to achieve the tapers to our exacting specifications—designed by and tested by fisherman.

My new rods offer you the finest highest quality rod blanks available today. Our new moderate fast tapers are not too soft or not too stiff, but a perfect in-between superbly designed moderately fast action fly rod unsurpassed by no other rod maker. In our new “Bamboo Tan” graphite blanks, we are using the newest high tech “BG33™ Blended Graphite” and we are always looking to provide the most advanced technology and materials to provide you with the best fly rods on the market today.

You will find my new “Bamboo Tan” colored “MOUNTAIN ROD™”, light in weight, unexcelled in quality, beautifully finished by “American Craftsmen”, ease in casting, sensitive and just the elegant beauty you want in a fine quality fly rod. If you want a superior high quality fly rod my “MOUNTAIN ROD™” has no equal—fishes as beautiful as it looks.

**FLY RODS BY "RIFFLE™" SINCE 1972**  
**STREAM ROD™ GRAPHITE ROD SERIES**  
**(MADE IN THE U.S.A)**

THE NEW EXPANDED Riffle™ "Stream Rod™" series of graphite fly rods offer the angler 21 models of your choice to suite most of yur angling needs. These rods are powerful, lightweight, superb casting, excellent quality and the price is very modest for such a high quality rod.

The new "Stream Tor™" graphite fly rod tapers permit long casts ever so easily and still have the good presentation have been making these rods for quite a number of years and many anglers have asked me to add some new small stream tapers, which you will find superb. I have added Nickel Silver fittings on all models and have made a change in the type of graphite material that was used previously. I am sure you will like these "all new" taper. Try one-you can count on our "high quality" -you will not be disappointed.

**RIFFLE™ FLY RODS—FINE QUALITY SINCE 1972**

**Made in the U.S.A**

**MOUNTAIN TROUT™ GRAPHITE RODS**

**NEW "BLENDED GRAPHITE BG33™"**

Our new "MOUNTAIN TROUT™" graphite fly rods are made from the newest in high technology and high tech materials, we actually use various grades of graphite incorporated in each blank to achieve the tapers to our exacting specifications. These tapers are quick-responsive-easy to cast and control-light in weight-durable and super high quality.

You will find all tapers designed by and tested by fisherman. I would describe most of these tapers as medium fast, that have quick power to cast flies easily and still have that ever so important presentation. All models are lightweight and simply said, "a very pleasurable and casting experience—quality at prices that very affordable. Made in the U.S.A

RIFFLE™ BAMBOO FLY RODS-FINE QUALITY SINCE 1972  
MADE IN THE U.S.A

**“QUAD RODS”—4 SIDED BAMBOO AND 6 SIDED BAMBOO FLY RODS  
“IMPREGNATED FLY RODS’ OR “VARNISHED FLY ROD”**

**IMPREGNATED RODS ARE LIGHTER THAN MY VARNISHED FLY RODS.  
MY IMPREGNATION PROCESS ADDS LESS WEIGHT TO THE ROD THAN DOES VARNISH.  
IMPREGNATION BEST QUALITY---“BASICALLY A LIFETIME MAINTENANCE FREE ROD”™**

My Riffle™ bamboo fly rods are designed for the fly fisherman looking for a traditional “Tonkin Cane” fly rod. These rods are beautifully finished as you would expect from such a high quality fly rod. I classify these superior fly rods—a beautiful medium action that delivers delicacy, a soft presentation and ease of handling your cast in close or far.

The Riffle™ bamboo rods are some of the finest cane rods built, intended to be fished and cherished not only in your lifetime but to be passed on to other family members. The quality of this rod speaks for itself, using only the very finest quality “Tonkin Cane” available and the highest quality Riffle™ nickel silver rod jewelry. Each rod length and line weight have been carefully thought out—“proven tapers” that you will enjoy for years. My rods epitomize the most finest elements of a truly handsome handcrafted fly rod—down to the very smallest nothing remains overlooked—simply a gorgeous rod. My rods are very conservatively priced but are extremely high quality in every detail—can’t miss with these rods.

Listed below are the current models in stock: Made in the U.S.A.
